THE EASTERN TELEGRAPH COMPANY, LIMITED.

The Egyptian Gazette

NORDDEUTSCHER LLOYD

No. 7,442] ALEXANDRIA, TUESDAY, MARCH 13, 1906. [EIGHT PAGES P.T. 1.

This Company's system of submarine telegraph cables is the most direct and quickest means of communication from Egypt to Europe, North and South America, East, South and West Africa, India, Australia, New Zealand, China and Japan.

To secure quick transmission, telegrams should be marked **Via Eastern.**

For latest average time to London, see daily bulletin in this paper.

STATIONS IN EGYPT: Alexandria, Cairo, Suez, Port-Tewfik, Port-Said, Suakin. Head Office, London.

BREMEN.
EXPRESS MAIL STEAMERS FROM ALEXANDRIA, PORT SAID, and SUEZ, TO NAPLES, MARSEILLES, GENOA, SOUTHAMPTON, ANTWERP, BREMEN, HAMBURG, AMERICA, EASTERN ASIA, AUSTRALIA Etc.
For Particulars see Advertisement below.

Peninsular and Oriental S. N. Company.

Berths can be definitely engaged beforehand. Plans can be seen at the Offices of the Company's Agents.

The through Steamers for Marseilles, Gibraltar, Plymouth and London are intended to leave Port Said after the arrival of the 11 a.m. train from Cairo, every Monday. A steam tender will meet the train to convey passengers to the ship.

The Brindisi Express Steamer leaves Port Said directly the Indian Mails arrive. Passengers can go on board the evening before.

The express steamer usually reaches Brindisi on Wednesday afternoon, the special train starting at 8 p.m. and arriving in London at the very convenient hour of 4.56 p.m. on Friday.

The combined Sea and special train fare is £22.9.11 Port Said to London via Brindisi or via Marseilles.

Passengers having paid full fare in one direction are allowed an abatement of 25 per cent. on returning within 12 months.

In addition to the above regular weekly service there are sailings about twice a fortnight of 5,000 to 7,000 tons steamers to London, calling at Malta or Marseilles.

TO THE EAST.

The Mail Steamers leave Suez for Aden and Bombay every Wednesday, and for Australia and China every alternate Wednesday. A steamer leaves for Calcutta, fortnightly, and another for Japan. Passengers can embark at Port Said.

For all further information apply to the Company's Agents,

THE IEHAD AND THE SENUSSI.

A writer in the "Pall Mall Gazette," discussing the recent outbreak in Nigeria, says that if ever a mighty struggle is organized against the white intruder it will be organized in the north. Here will be found the heart and brain of such a movement, and here already to-day there is in evidence a systematic organization ceaselessly at work, as many an officer of both the British and French colonial levies, who has encountered its signs and symbols, can tell. From time to time there have been volcanic outbursts, but the hour for a more general eruption would seem to be deferred, and until then the European may still count on the adherence of his native levies, and laugh, if he will, at the notion of an effective coalition against him.

Nevertheless, the ranks of the West African native regiments, and undoubtedly our Sudanese battalions further east, are crowded at the present moment with the adherents of this secret propaganda; and its priests, its travelling mullahs, or missionaries come and go from east to west, from north to south, as freely and almost as invisibly as the winds themselves. We so far recognise the advisability, however, of keeping their movements under observation that it has long been the rule with us to compel these men to carry small passbooks, which have to be checked and signed by every British commandant in whose station they seek to stay. And it will afford some notion of the ubiquity of these peripatetic Makaten when I say that a British officer recently, on examining the passbook of one of them on the Gold Coast, found that the man must have been in Khartoum at about the time of Gordon's death there.

Not long since a native sergeant of the French levies deserted and joined the Nigerian forces. From this man, who was disposed to be very communicative, a British officer informed the writer that he learnt many particulars concerning the hopes and aspirations buried in the hearts of the native races, as well as of the mysterious organization lying in the back ground by which they are stimulated and inspired.

"One day," said this man, "when all is ready, we shall drive the white people out of Africa; but the time is not yet come." Meanwhile, he evinced no unwillingness to accede to his British officer's request that he should point out to him the members of the secret fraternity of the Senussi who were then in the ranks of the force in which he was serving, and whenever the two were together he was in the habit of giving his officer a prearranged sign whenever any Senussi-ite came before him. In this way the officer ascertained that more than half of the men serving in his command belonged to the brotherhood, and that two were actually priests, or mullahs, of this vast and far-reaching organization.

With regard to the latter itself, he learnt much that was highly interesting. Something like 600 miles southward from the Mediterranean, and 500 from the Nile, lies the headquarters of this great fraternity. In the inaccessible town of Jaffo, in the oasis of Kufra, surrounded by inhospitable desert, with wells sixty and seventy miles apart, and the route known only to experienced guides—any one of whom would die a thousand times rather than betray it—the able and mysterious personage who is regarded by the myriads of his devoted followers as the true Mahdi is watching, planning, and preparing for the great day, so long and eagerly expected, when the green standard shall be unfurled over Africa, and the dark races shall rise and battle for the land of their fathers.

It has been too often assumed, even by intelligent people, that the natives of Africa possess no ideals, no patriotism, or aspirations as to the future of their race. Never was a greater error. Regarding himself as the equal, if not superior, of the white man, the native is filled with a deep resentment at the latter's confiscation of his territory, weapons and liberty. The result is that for a long time there has been growing and spreading an instinctive community of unrest, and a corresponding community of longing for the hour and the Man that shall enable them to crush the hated white people who have so arrogantly seized their continent.

Now, to one who has lived long within touch of this vast evolution of human forces, the two facts of most noticeable importance are the steady development of this community of native feeling and the actual presence of the Man—the potential Leader: a personality, moreover, not limited by the span of human life, but represented by the headship of the confraternity. And what community of African feeling has Senussi-ism already achieved?

By its ceaseless propaganda and lofty Mohamedan ideals it has drawn into a common brotherhood of religious enthusiasm the intelligent, liberty-loving Somali, the more degraded negro of Senegambia, the fierce nomadic Arabs of the north, the ease-loving Adamawese, and the savage Mabas of Southern Wadai. It is still moving southward, and if it has done all this it can also inspire to united action the less varied peoples of Southern Africa. Mohamedanism is making wonderful progress in the interior of the continent. It is crushing out Paganism, and wherever it goes there also goes the Senussi propaganda, for a beacon, as it were, upon the hilltops, waiting only for the master-hand to apply the torch.

It has been estimated that the actually affiliated members of Senussi-ism number ten millions, which would be but a fraction of the total force available if Senussi proclaimed the Jehad. Secure in the heart of the Saharan wilderness, he has accumulated in his stronghold huge stores and munitions of war. He possesses an armoury as well as an extensive factory for the manufacture of arms and ammunition, while others, of the latest pattern, are constantly transported thither from at least three parts of Africa, in company with caravans bearing costly gifts and despatches from his numerous secret agents who are at work not only in Africa, but in Europe as well.

But Senussi is an astute statesman, who, just as he refused to associate himself with the false Mahdi of Khartoum, will only move when a favourable conjunction of circumstances, such as a great war in Europe, furnishes him with an opportunity to appeal to a wider unity of Mohamedan sentiment and action than has been seen for ages.

Officers who have watched the movement both from Khartoum and Nigeria are satisfied that when such a psychological moment arrives the European will be confronted with overwhelming numbers, having an infinitely superior military efficiency and armament than any yet encountered in Africa; while numbers will have learnt the arts of civilised warfare in the West African and Sudanese regiments of ourselves and the French.

To the native races of Africa the fierce warlike spirit of militant Mohamedanism is infinitely more attractive than the higher moral standard of Christianity. Hence the former's rapid progress in Central Africa and the certainty of its further influence south of the Zambesi. Even those tribes which know not the name of Mohamed would realise on the morn of a Jehad that the man and the chance had come at last to strike a deadly blow at the hated white race.

From amidst the wastes of the Sahara a keen eye is watching the development of events to the north as to the far south, where any troubles arising from the flaccid policy of Britain will be noted as surely as was the Majuba surrender, which abolished throughout Africa the legend of British omnipotence. To those upon the scene who have made a close study of the problems of underground Africa, nothing would appear more likely than that the outbreak of a great European war, in which the three greatest holders of African territory were engaged, would set the Dark Continent in a mighty blaze from the Atlas Mountains to Table Bay.

LOCAL AND GENERAL.

Khanka Lunatic Asylum.

It has been decided that a motor road is not necessary for the Khanka Lunatic Asylum.

Flower Show.

The Khedivial Horticultural Society's annual Show will be held on the 24th and 25th inst.

Thasos.

The Porte, it is said, has granted to Germany permission to establish a commercial station on the Island of Thasos.

Military Camp.

One company of the 1st Battalion King's Royal Rifle Corps will leave Cairo for Mena on Thursday next and will camp there.

Standard Life Assurance Co.

Messrs. Baber and Mizrahi have been appointed chief agents for Alexandria for this company, in succession to Messrs. B. Nathan and Co., who have resigned the agency.

Freemasonry.

An emergency meeting of the Albert Edward Lodge of Freemasons will be held in the New Masonic Hall, Central Buildings, Old Bourse-street, on Thursday, 15th inst., at 8 p. m.

Land Allotment Co.

Sir William Willcocks left for Cyprus to-day in order to take up the options in the interest of the Egyptian Land Allotment Company. Sir William expects to be away for about a month.

Exhibition of Water-Colours for the following

Miss McCracken and Mis wife and marry of the Royal Ministubject in Cairo recently embraced the Islamic faith, and as the German Government does not recognise any German subject unless he be either a Christian or a Jew, the pervert has demanded French protection.

Corporation of Western Egypt.

To enable the chemist to devote his whole attention to, and effectually to supervise, the manufacture of aluminium sulphate, a further appointment of a highly trained chemist and analyst has been made, who will deal in the Oases with the samples sent in by the prospectors. It is anticipated that a large quantity of the crude material with its valuable cobalt content will be available for export immediately upon the completion of the Western Oases Railway now being constructed by the Corporation.

French Comedy Company.

This evening M. Le Bargy's company will begin a series of performances at the Zizinia Theatre, Alexandria, with *Le Marquis de Priola*. They will remain here for seven days only and will give a performance every night. The series will include the masterpieces of drama in which M. Le Bargy has gained European fame at the Comédie Française. He will afterwards proceed to Cairo and will open at the Khedivial Opera House on Tuesday next, the 20th inst. Mme Le Bargy has recently been playing in London with Mr. George Alexander in English in an adaptation of one of the plays of M. Capus.

Motor Buses for Alexandria.

Alexandria is likely to have a service of motor omnibuses in full swing this summer, as the Motor Omnibus Company contemplate starting operations on the 1st July next. The board of the company has just been formed, and consists of Messrs. Delta, Clement Suares, Alfred Suares, Paraskevas, and Giglio. Mr. A. Kempner has been appointed managing director. Application has been made for a Khedivial decree authorising the formation of the company. Forty omnibuses are to be put on the streets to commence with, and all parts of Alexandria and the suburbs will be served.

BARON JENISCH'S DEPARTURE.

APPRECIATION OF HIS SUCCESSOR.

The dinner given by H.H the Khedive to Baron Rucker-Jenisch on the 10th inst. was attended by H.H. Prince Mohamed Aly, the Ministers, Ahmed Zeky Pacha, De Martino Pacha, Graf von Wedel, Graf von Mohl, Herr von Bulow, Dr. Gumprecht, and the principal members of the German colony at Cairo.

Baron Rucker-Jenisch left Cairo by the 6.15 train on Sunday evening. A large number of friends of the popular German Diplomatic Agent bade him farewell at the station, among them Ali Bey Shahin (representing H.H. the Khedive), Lord Cromer and the whole of the Diplomatic and Consular Corps, Boutros Pacha Ghali, Abani Pacha Fakhry Pacha, Mazloum Pacha, Boghos Pacha Nubar, Aziz Pacha Izzet, and many others. General regret is felt at the departure of Baron Jenisch. who has proved an admirable representative of his country and whose relations with the Egyptian Government and his fellow-diplomats have been uniformly friendly.

A warm appreciation of Count Bernstorff, who has been appointed to succeed Baron Rucker-Jenisch, appears in the "Standard." "It is hardly necessary," the journal remarks, to state that Count Bernstorff arrived in England at a time when, for various reasons, the feelings of Germany and England towards one another were of a far from friendly nature. As first Secretary of the German Embassy, he has always set before himself the task of altering those feelings by every means in his power, since he is firmly convinced that hostility, whether open or covert, can only be disastrous even to both countries.

sadors have been and has not only made many Bernstorff seems to hland, but he has by in- and has reaped the reward with his opponents' both branches of the Teutonic imendable frank- bear with him many good wishes own diplomacy to Egypt, where he is sure of a welcome among his colleagues."

THE KHEDIVE.

H. H. the Khedive came in to Abdeen Palace yesterday morning and returned to Koubbeh Palace at 10.30 p.m.

His Highness gave a dinner yesterday evening to the Duke of Argyll and H. R. H. Princess Louise, Duchess of Argyll.

Sir Malcolm McIlwraith was received in audience by his Highness on Saturday, when he submitted his report on the Egyptian Tribunals for 1905.

CAIRO LAW STUDENTS.

We understand that calmer feelings now prevail among the Law School students, whose recent attempt at an ultimatum has been severely criticised by several of our Cairo contemporaries. The "Journal du Caire" remarks: "Before claiming the fulfilment of their demands the students of the Law School should have thought of their comrades of the Polytechnic and the School of Agriculture, who stood by them only too firmly, and remembered that their colleagues had suffered and suffered heavily, through their conduct and while they were permitted to return to their classes their allies were expelled."

After disavowing the strike and offering their submission the threat of another strike made by the law students was stupid and treacherous: it may prove to have postponed the alteration of the regulations in favour of certain of their demands, and it is hardly likely to inspire the educational authorities with great confidence in their good faith.

CONSTANZA ALEXANDRIA LINE.

A party of Roumanian tourists will shortly make a trip to Alexandria on board a steamer of the Roumanian Navigation Service. The party will meet at Constanza. The voyage will be made as a trial of the Constanza Alexandria line which the Roumanian company proposes inaugurating in October conjointly with the Norddeutscher Lloyd.

BAND PERFORMANCE.

By kind permission of Lt. Col. C. J. Markham and officers, the band of the 1st Batt. King's Royal Rifles will perform the following selection of music to-night at Ghezireh Palace from 7.45 to 9.40 p.m., to be followed by an extra small dance:—

Galop-Marche—Roumaine—Gaune.
Danses caracteristiques—Casse Noisette—Tschaikowsky.
I Marche—II Danse des Miritons.
III Danse Arabe—Danse Russe Trepak.
Traumerie—Schumann.
Selection—The Yeoman of the Guard—Sullivan.
Gavotte—Snowflakes—Thiele.
Selection—Les Cloches de Corneville—Planquette.
Shepherds' dance from Henry VIII—German.
Flute Solo—Madrigole—Simonetti
(Musn. E. Tyler)
Regimental March—Khedivial Anthem.
God Save the King.

Thomas Brown, Bandmaster.

THE SUCRERIES.

EFFECT OF JUDGMENT.

PETITION FROM NAG HAMADI.

The Paris correspondent of a financial contemporary states that the declaration of the bankruptcy of the Egyptian Sugar Refineries will probably involve the banks and those who have discounted the Cronier bills in heavy losses. Only a few days ago the Austrian Länderbank issued in its annual balance-sheet that the Paris branch had in its portfolio 6,000,000f. worth of these bills. At the Concordat arrangement the Länderbank received in cash 20 per cent., and 80 per cent. in preference shares of the Egyptian Sugar Refineries. Nevertheless, the directors thought it advisable to write off 1,500,000f. for all eventualities. This reserve will, of course, be insufficient to cover the actual losses should the failure be confirmed in the Court of Appeal.

The judgment of the Mixed Court at Cairo has caused intense dismay in Upper Egypt, and it may be safely said that no judgment of the Appeal Court has been awaited with more extreme anxiety than its forthcoming decision on Wednesday next. As a sample of native feeling on the matter we give the following translation of a telegram sent to the President of the Mixed Appeal Court at Alexandria and signed by 72 native farmers and sugar planters of Nag-Hamadi:—

"To the Just President of the Court of Appeal at Alexandria.

"We, the undersigned, husbandmen of Nag-Hamadi, humbly submit to you our petition and crave of you, in virtue of your love of justice and your conscience, to quash the judgment of the Court of 1st Instance in the matter of the Sucreries and to accept the arrangement proposed by the company. The company, which buys considerable stocks of sugar cane from us, is the mainstay of our welfare, and judges of the our children and our kinsfolk the continuance company has heretofore sugar plantations is pray of you for the sake of, and ever since we grant us this privilege by giving judgment in accordance with the dictates of compassionate equity and earnestly hope that you will not be the instrument whereby the income from over four thousand feddans of land, which is the mainstay of our livelihood, will be lost to us for ever."

M. Sampaolo a adressé aux fellahs une lettre les engageant à ne pas couper les boutures des nouvelles plantations de canne. Le syndic provisoire de la faillite des Sucreries expose que l'intérêt des cultivateurs, quelle que soit la décision de la cour n'est pas de restreindre leurs cultures de canne à sucre.

Il leur demande tout au moins de ne pas prendre une semblable décision avant le jugement de la cour d'appel qui ne peut tarder que de quelques jours encore.

⁂

M. Tuck, juge commis dans l'affaire des Sucreries, a rendu une ordonnance autorisant la Société à continuer de passer des contrats et avances sur cannes pour la campagne 1906-1907.

Cette décision ne manquera pas de tranquilliser les cultivateurs alarmés par le jugement du tribunal mixte du Caire.

⁂

Les créanciers de la faillite de la Société générale des Sucreries et Raffinerie d'Egypte qui avaient été convoqués en exécution de l'art. 255 du c.c. pour le lundi 19 courant sont informés que cette réunion aura lieu le dit jour à 3 heures p.m.

ANGLO-BELGIAN CO. OF EGYPT.

Besides the control of the Fayoum Light Railway the objects of the Anglo-Belgian Company of Egypt are to carry on financial, railway, tramway, electric, building, land development, industrial, and shipping business in Egypt and the Sudan, and the directors will give their attention to the question of the navigation of the Nile, especially in the Delta. Among Baron George de Reuter's colleagues on the board will be a director of the African Banking Corporation and a director of the Anglo-Egyptian Bank. The full directorate will consist of four residing in England, four in Belgium, and two in Egypt.

STEAMER MOVEMENTS.

The Moss liner Seti arrived yesterday afternoon from Liverpool, via Gibraltar, Algiers and Malta, with passengers, mails, and general cargo.

The S.S. Indian Prince, with passengers and general cargo, left Manchester on Monday and is due at Alexandria via Tunis and Malta on or about March 28.

The Papayanni liner City of Cambridge arrived at Liverpool this morning.

NOTES FROM PORT SAID.

AN UNSATISFACTORY SENTENCE.

(From our Correspondent.)

Port Said, Monday.

The Native Court here has sentenced a Berberin, who recently attacked and severely injured Chevalier F. Ssivicohl, of the Italian Consulate, to one year's imprisonment with hard labour. The sentence has produced an unfavourable impression in some quarters, as it is not thought the punishment fits the crime, considering the serious nature of the injuries inflicted on the victim.

Port Said Salt.

The British steamer Eldie recently left, with a cargo of 3,700 tons of Port Said salt, for Calcutta.

Explosives.

Altogether four steamers carrying explosives arrived within a few days. The S.S. Victorious had 200 tons of cordite for Hong Kong, an Italian steamer, the Manin, carried 75 tons of explosives for Calcutta, and the S.S. Wilgunde and S.S. Lowther Castle carried 50 tons and 140 tons of explosive matter, respectively—a very respectable quantity, considering how far a little of this material will go.

U.S. Transports.

The United States transports MacClellan and Kilpatrick arrived here on Saturday morning, carrying together over 1,000 officers and men. These troops are bound for the Philippine Islands, but will probably be here some days as certain repairs have to be executed to the boilers of one of the transports.

Sport.

There was a Rugby match on Saturday afternoon between Port Said and H.M.S. Minerva. It was a one-sided affair all through and the Minerva won by 14 points to nil. The result is not discreditable to Port Said, as they were unfortunate in not being able to put a full team on the field. However, the object in view was attained, namely, to have good exercise and an enjoyable afternoon's sport.

Owing to several native boats having gone alongside the Ortona, 12 of them have been sent by the authorities to Moses' Wells to perform five days' quarantine.

The Japanese steamer Iyo Maru entered the Canal yesterday for London with general cargo. Amongst the passengers there were crews for the new Japanese men-of-war which are now being built in Great Britain.

THE BAHR EL GHAZAL.

We understand that there is no foundation for the report emanating from the "Sudan Times" that several soldiers had attacked their officers at one of the Bahr el Ghazal stations. Apparently, the so-called mutiny was confined to a soldier, who, under the influence of drink, or tropical irritability, or both, fired at an Egyptian officer, wounding him in the foot, and afterwards committed suicide.

DISORDER AT AL AZHAR.

A student of Al Azhar University writes to "Al Mokattam" to say that the administration of Al Azhar seems to be paying little heed to the disorder existing in that university, and that the students have been obliged to submit their grievances to Lord Cromer.

AMERICAN SQUADRON.

On the arrival of the American squadron outside Alexandria harbour yesterday, Rear-Admiral Sigsbee, who is in command, quitted his flagship, the Brooklyn, and went on board the cruiser Galveston, which went out to the open sea again for inspection by the Admiral under steam power. The cruiser went as far as Abookir and returned to join the other vessels in the afternoon.

Mr. James Hewat, American consular agent at Alexandria, proceeded on board the Brooklyn on the arrival of the ships and paid an official visit to Captain Nazro.

The Hon. L. M. Iddings, American Diplomatic Agent and Consul-General, who came down from Cairo yesterday, paid an official visit to Rear-Admiral Sigsbee this morning, accompanied by Mr. James Hewat, Judge Batcheller, Mr. Romeo, and Mr. Grew, of the Diplomatic Agency, who has, by the way, just been appointed to the third secretaryship at Mexico.

It is not known how long the squadron will remain at Alexandria, but it is expected that two of the vessels, the Galveston and the Chattanooga, will proceed hence to China or Japan.

The Brooklyn will return to the United States on leaving Alexandria.

LETTERS TO THE EDITOR.

We do not hold ourselves responsible for the opinions expressed by our correspondents, but we wish, in a spirit of fair play to all, to permit—within certain necessary limits—free discussion.

EGYPTIAN COMPANY PROMOTING

To the Editor of the Egyptian Gazette

Dear Sir,—In view of the great activity now prevailing in the local share market and the number of new flotations, I think that it may not be unadvisable to draw attention to the warnings against wild cat schemes on which both Lord Cromer and Sir Vincent Corbett have animadverted. These words of warning were angrily protested against by the company-mongers as being calculated to prevent the inflox of European capital into Egypt, but the company-mongers, will only have themselves to thank for this if they continue to repeat some of the manœuvres which have been so successfully practised lately. A company recently was launched with a moderate capital, of which nearly forty per cent. was absorbed by the promoters and vendors for the good will of the business, the annual profit of which was probably prudently not revealed. Taking the highest price touched by the shares, the value of the company would appear to have increased threefold since the flotation. Is this increase due to the genuine belief of the investing public in the bona-fides of the concern or merely to skilful manipulation on the part of some astute individuals? Unfortunately there are rumours afloat as to the extraordinary disinterested endeavours of a few of the gentlemen concerned to put their friends on "a good thing." Numerous are the complaints of luckless applicants for shares, who, thoroughly relying on the verbal promises of some of the directors, sold a portion of the allotment only to find out the worthlessness of directorial pre-allotment promises by being rudely awakened to the fact that instead of selling one half of their allotment they had sold from twice to five times the amount.

The natural result is that, having oversold their allotment they have had to cover at a very considerable loss. It may be said that it was impossible to give effect to the promises that were given, *but why in such a case did the directors not close the application list until the last moment?* rush. But consider the effect messagards the operations of the cornering coinicate. In vain the snare of the fowler was spread in sight of the bird. The astute operators were not foolish enough to show their hand but allowed a gulled public to believe that the great rush for the shares had exhausted itself, and that they might confidently reckon on obtaining something like ten per cent. of their application, to which extent they probably sold, and in so doing they delivered themselves into the hands of the promoters of the corner. I enclose my card, which you are at liberty to place at the disposal of the directors, and remain.—Yours truly,

"Vigilans."

Alexandria, March 10.

P.S.—In justice to some of the directors I should like to point out that they are not all professional financiers.

ANTEDILUVIAN POST OFFICE ETC.

To the Editor of the Egyptian Gazette.

Sir,—I have found out since writing to you on the above, that, when the Nile is too low for the express boats to run, money is conveyed by the post office, in group, right up to the Edfou station. It comes by rail all the way.—I am, etc.,

Somers Clarke.

El Kab, Mahamid, March 8, 1906.

SUPREME CONSULAR COURT.

H.B.M.'s Supreme Consular Court for the Dominions of the Sublime Ottoman Porte commenced its sittings at Alexandria yesterday.

The case of Rex v. Antonio Carabott was heard. The accused was charged with attempting to injure his wife and was sentenced to one year's imprisonment with hard labour. The case presented no features of interest and was merely a sordid story of the ill-treatment of a wife by a Maltese husband of bad antecedents.

The jury was composed of Messrs. Tennant, Parsons, Dilberoglue, Dickson, and Alexandroff

The only other case to be tried is that of Max Carasso, assistant director of the Tax Collection Department of the Alexandria Municipality, v. Carmelo and Antoine Buhagiar. The defendants are accused of conspiring to cheat and defraud the Municipality. This case will be heard to-morrow.

PERSONAL AND SOCIAL.

It is thought probable that Queen Alexandra will also cruise in the Mediterranean with the King. If so, a visit would be made to Athens, and their Majesties might be present at the Olympian games. British residents in Eastern Europe would rejoice to see a royal visit to Constantinople, even if it only extended for one day. The political effect would be tremendous. So far a call on the Sultan of Turkey has not been seriously contemplated.

H.H. Prince Djemil Pacha Toussoun arrived at Alexandria to-day by the Messageries Maritimes steamer, on his return from Europe.

We congratulate Owen Bey on his promotion to the temporary rank of Miralai.

The Bishop of Hereford has arrived in England from Egypt. During his stay in Egypt and the Sudan his lordship seems to have been much interested in the native character. In a letter he wrote home to his diocese he expressed the opinion that Christian people can learn practical lessons as to prayer and sobriety from Mohamedans. The universal prayer of one-sixth of the human race at the summons of the meuzzin and their general abstinence from strong drink have deeply impressed him. "It is a shame," he says, "to us as a Christian people, if we remain behind the Mohamedans in temperance, sobriety, and self-control."

We regret to hear of the death at Cairo of Mr. C. W. Wynch, youngest son of the late Lieut.-Col. H. P. Wynch, Bengal Staff Corps, and only brother of Mr. F. B. Wynch, manager of the National Bank of Egypt, Khartoum.

The marriage took place at Boscombe on the 17th ulto. of Baron Gaston de Menasce, son of Baron and Baroness Jacques de Menasce, to Laura, daughter of Mr. and Mrs. Lait, of Boscombe.

The following passengers left for Upper Egypt by the train de luxe last night:—Mrs. Blackwell, Mr. Lechner, Mrs. Lechner, Messrs. Woronovitch and Balacf, Mr. and Mrs. Wiel, Mr. D. E. Gillingram, Mr. Backhouse, Mr. Goodman, Mr. Harris, Baron Tolma, Mr. Fabeale, Mr. Schoder, Marquis Negroni, Mr. Von Bonin, Mr. and Mrs. Chase, Mr. Sampaolo and party of 3.

LA COURRIERES DISASTER.

GOVERNMENT RELIEF.

NUMBER OF VICTIMS: 1,150.

PARIS, March 12.

The Chamber has unanimously voted 500,000 fcs. for the relief of the families of the miners of La Courrières. The roll-call shows that the victims number 1,150. Only 90 bodies have been recovered. Further operations have been stopped owing to accumulations of fire-damp and the stench emanating from the bodies. There are various theories regarding the cause of the disaster. It is generally believed that fire-damp accumulated and came in contact with the naked lights which are always used in the Courrières mines, where fire-damp has hitherto been unknown. *(Reuter)*

PARIS, March 12.

The Chamber of Deputies passed a vote of condolence for the Lens victims and a grant of 500,000 francs.

Messages of condolence are arriving from all parts of the world. The Tsar and the German Emperor have telegraphed their sympathy for the victims. *(Havas)*

CHAMPION SCURRY.—Hussein Bey Sioufi's Sweetie, Saad Bey Shedeed's Marazouk, Capt. Gillson's Sirur, Clown, and John Peel, Saad Bey Shedeed's Samhane, Messrs. A. J. Sursock and A. J. Michaelides's Ruy Blas and Pan, Ishak Bey Hussein's Nusrut, Saiad, and Souhar, Messrs. A. J. Michaelides and A. J. Sursock's Nigri, Mr. Schreiber's Mahmoud and Sir Visto, Messrs. Higgins and Greville's Faik, Capt. Protheroe Smith's Bibico, Ahmed Eff. Ibesh's Chir.

GORDON CHALLENGE POLO CUP.

By the defeat of the 60th on Wednesday three teams tied with the same number of points for the honour of contesting the final with the Tourists. As the manœuvres commenced yesterday, there was no time to play off the ties, consequently the Tourists become holders of the cup, and rightly so, as they have come through the tournament without defeat. To fill up the afternoon a match was played between the Tourists and a Cairo team, the latter proving victorious. After the game Mrs. Bullock presented the cup to the winners and in addition a small souvenir to each member of the team. Capt. Bayley, in a few words, thanked Col. Gordon, in the name of the members of the Polo Club, for the very handsome cup he had presented to them.

The tournament has been a great success and some quite good polo has been seen during the fortnight, and if in future the teams are selected earlier in the season and have more practice together, we shall see a great improvement in the polo in Cairo.

KHEDIVIAL SPORTING CLUB.

A Skye Meeting will be held at Ghezireh on Wednesday, the 28th inst.

INTERNATIONAL DONKEY DERBY.

The International Donkey Derby took place on Sunday night at 11.30 p.m., when the noon was at its fullest. This annual event is quite a popular meeting insomuch that the jockeys are the waiters from the various Cairo hotels, and their steeds are the ordinary donkeys used for riding purposes in the neighbourhood. Naturally there is a great gathering of the friends of the riders and of the native population, and some difficulty in keeping the course round Ghezireh clear of eager partizans. The prizes range from £5 downward and there were fourteen entries for the first race, which was won in great style by Mr. Hans Leck, of the Hotel du Nil, who kept ahead all the way and passed the winning post with some three lengths in his favour. The course measures about three miles and was covered by the winner in seven minutes. The second race, which was a distance of one mile with prizes of P.T. 250, 125, and 75, was won by Mr. Koeffler, of Shepheard's staff

THE FUTURE OF THE SUEZ CANAL.

THE QUESTION OF REFORMS.

A FORMER DIRECTOR'S VIEW.

The Japanese Ambassador, Viscount Hayashi, G.C.V.O., was the guest of the Newcastle and Gateshead Chamber of Commerce at the annual dinner, recently, the President Sir Charles Mark Palmer, M.P., being supported by a number of captains of the Japanese Army, Lord Edmond Fitzmaurice, Under-Secretary for Foreign Affairs, the Earl of Durham, the Mayors of Newcastle and Gateshead, and Justices Bigham and Walton.

Sir Charles Palmer, who is a former director of the Suez Canal, in proposing the toast of "The Japanese Empire," remarked that we were looking forward to an extension of our trade in the East, and to the time when it would be necessary for steamers of more power and greater dimensions to pass through the Suez Canal. They had been startled during the past few weeks by the fact that the course was blocked owing to an accident to a cargo steamer which should not have occurred. What was wanted was the establishment of a large waterway, and a considerable reduction of dues. (Applause.) As a former director of the Suez Canal, he believed the directors would be prepared to carry out necessary reforms. Not only was a bigger waterway needed, but it should be more under the control of the countries that had the greatest interest in it. (Hear, hear.) He hoped Viscount Hayashi would assist us with the powerful aid of his great nation in bringing about the reform that he had suggested. (Applause.)

Lord Fitzmaurice, replying to the toast of the "Houses of Parliament," also alluded to the Suez Canal. The Foreign Office had, he said, recently acted promptly in regard to a danger which arose on the Eastern side of the Suez Canal, where they had some reason to question the legitimacy of the appearance of a considerable force of Turkish troops at a point which the Foreign Office considered was Egyptian territory. The Foreign Office were determined to make the frontier of Egypt on that side absolutely secure against danger, and they had asserted the rights of the Government of Egypt. (Cheers.)

A PARADISE FOR PIGMIES.

A movement, which has the support of Mr. Chamberlain, Lady Stanley (widow of the well-known explorer), Sir H. H. Johnston, the Earl and Countess of Orford, the Earl and Countess of Romney, Lord and Lady Wenlock, Lord and Lady Belper, and others, is on foot for the purpose of sending an independent industrial mission to the Congo Forest, whither the pigmies, who visited Cairo last year and afterwards went to England, will return later in the year. The proposal, which has the approval of the Belgian Government, is to establish two or three villages in healthy parts of this dense forest, where the pigmies might be induced to reside and be taught how to cultivate rice, potatoes, bananas, and tobacco.

How the Liberal and Labour legislation of the new Government will affect investment values is the subject discussed in an important article in the March issue of the new high-class monthly, the "Financial Review of Reviews." Investors who desire to guard against depreciation of capital should not fail to read this article. "Financial Review of Reviews" for March, 240 pages, post free 1s. from the publishers, 2, Waterloo Place, London, S.W.

Icilma.

ARABIC FOR "FLOW THE WATER."

Icilma Flour Cream is the only cream that contains no grease nor oil. Deliciously scented it cleanses the pores of the skin as nothing else can do, makes it pearly white, gives life to the tissues, elasticity to the muscles, and a deliciously cool feeling to the skin.

Its unique properties are due to **Icilma Natural Water** so that it may well be called

Nature's Skin Food

and the skin requires nothing else to give it the necessary vitality, to preserve it from sunburn, heat, cold or the effects of hard water, to prevent and cure the minor irritations due to overheated blood, and to preserve the youthful fresh look to which hot climates are so fatal.

Invaluable for immediately curing mosquito and insect bites and for greatly preventing them.

Depot for Egypt: **J. McGregor, Chemist.**

NILE VALLEY CO.

AMENDED RECONSTRUCTION SCHEME APPROVED.

An extraordinary general meeting of the Nile Valley Company, Ltd., was held on March 5th at Winchester House, Old Broad-street, London, E.C., Mr. R. J. Price, M. P., presiding.

The Chairman said the new scheme of reconstruction was practically the old scheme with one addition—that was to say, section 161 of the Companies Act was now included. The shareholders knew that that was the dissentient shareholders' clause in the Companies Act. As they were aware by the circular, an injunction was obtained against the directors continuing the old scheme. He was sorry that their good intentions had resulted in the shareholders being troubled to attend an extra meeting. If it had not been for the injunction they would have been holding the confirmatory meeting that day, and should have been able to settle their business more promptly. It was a misfortune, he thought, for the company but still it could not be helped. With regard to the progress at the mine, he was glad to say that it was really opening up very well at depth. The lowest part of the mine now showed good results. They were reached in the winze from the lower level, which was now down 102 ft., or 302 ft from the surface, and from a point 2 ft below the second level, or 22ft from the surface, the assays had been extraordinarily good. The winze had followed the reef. It maintained a width of about 30 ins, and was even wider than that in a good many places, while the values were distinctly good. At 93ft the reef was 28 ins wide; the north face was worth 26.1 dwts. At 95ft the reef was 35 ins wide; on the north face it was worth 8.4 dwts and on the south face 81.2 dwts. At 99ft the reef was 29 ins wide; on the north face it was worth 42 dwts and on the south face 43.2 dwts. At 102ft the reef was 29 ins wide; on the north face it was worth 8.5 dwts and on the south face 20 dwts. Those were extraordinarily good values, and it looked as if the directors' prognostication would be fulfilled, that the ordinary working of the mine would pay the expenses. Of course, any quantity of stuff of those values would very much more than pay the expenses, but it looked as if they ought really to pay their expenses right along, and when they got good stoff make profits. That they would get good stoff in other parts of the mine personally he had no doubt. The fact that the reef was going down as it was showed that they had a genuine fissure, and it looked as if the values would go down. These, as ordinary values, were, of course, better than they had in the upper portion of the mine, and if they found in addition the rich patches they hoped for, notwithstanding the expensive nature of mining in Egypt, they ought to do very well. At all events he thought the shareholders would feel that with assays like those in the lowest portion of the mine, it would be the height of folly not to raise more money and go on. (Hear, hear) Of course, there might be differences of opinion as to whether they were raising the money in the best way; but he thought men of business would realise that they were raising it in the only practicable way. One shareholder had suggested debentures. He (the Chairman) had tried that before and he knew people would not take debentures. Another gentleman had written suggesting preference shares. The same remark applied to that. Practically reconstruction was the only method, and he was sorry that, owing to the cumbrous nature of our company law, reconstruction was such a troublesome, wearisome, and expensive business. The Chairman concluded by moving the three reconstruction resolutions.

Colonel Spragge seconded the motion.

The solicitor explained the provisions of the agreement, and the resolutions were carried by the requisite majority, one shareholder only dissenting in the case of the third resolution.

Mr. Wileman proposed a vote of thanks to the Chairman, and suggested that the shareholders should place on record their opinion that they most deeply deplored the ill-advised action of the gentleman who took steps to vitiate the reconstruction proceedings which were previously approved and passed. That gentleman had gratuitously involved this company in a very great additional expense, which had fallen upon the shareholders in one way or another. Shareholders should recognise, before they took such steps as had been taken by a holder of twenty shares, some responsibility not only to themselves, but to their fellow-shareholders.

Mr. Bisgood seconded the motion, and at the same time pointed out that there could not be any loss to the shareholders from the action which had been referred to because the directors, having had the scheme declared ultra vires, would no doubt have pleasure in paying the costs themselves. (Laughter.)

The Chairman remarked that he was not at all convinced that the scheme was ultra vires.

The motion was adopted, and the proceedings then terminated.

THE EGYPTIANS IN SINAI.

PROF. PETRIE'S FOURTH LECTURE.

Prof. Flinders Petrie gave the fourth of his lectures at the Continental Hotel, Cairo, yesterday afternoon. The subject was the exploration of the antiquities of Sinai by Prof. Petrie's party last winter. Views were shewn of the historic road down to Sinai, and the water of Elim. The party first stayed at the mines of Wady Maghareh, which were a source of turquoise from the time of the first dynasty. Far above the mines is a carved relief of Semerkhet, a king of the 1st dynasty, conquering the Bedawy chief; this is the oldest sculptured scene on a large scale that is known. The modern miners had unhappily destroyed more than half of the long series of later inscriptions, and those that were left have been nearly all removed for safety to the Cairo Museum.

From here the party went to the mines and temple of Serabit el Khadem, about twenty miles to the north. This temple is on a plateau of sandstone, which falls away in precipices eight hundred feet high, and is cut through by deep gorges. On approaching the temple many shelters of stones are seen, some with religious tablets set up in them. These appear to have been used by those who came to sleep by the temple in order to obtain oracular dreams. Such stones are the parallel to the Bethel stone of Jacob's dream.

The original temple was only a rock-cave, with altars placed in it, and a row of memorial stones set up in front of it. This was first started as early as Sanefern at the close of the third dynasty, and was much enlarged in the twelfth dynasty before 3,000 B.C. On the hill in front of the temple burnt sacrifices were continually off-red, so that a great mass of ashes was accumulated of which about fifty tons yet remain under later buildings. Subsequently, in the eighteenth and nineteenth dynasties, the temple was greatly extended, until it was over two hundred feet in length.

The largest chambers in the temple were for courts of ablutions, with a tank in the middle and pillars placed around it. This is the prototype of the *hanafiyeh* court of the Moslem mosque. It shews the great importance attached to a ritual of ceremonial ablutions, as also was the case in the Jewish system. Many small altars for burning incense upon were also in the sacred cave.

The worship here was of Hathor, who was the Egyptian form for many foreign goddesses, especially for the cow-goddess Ath-thor or Ashtoreth of Asia, whose name is supposed to be the origin of that of Hathor. The entirely Semitic character of the worship of Serabit shews that it was probably a native shrine of Ashtar originally. The burnt sacrifices, the incense altars, the courts of ablutions, and the shelters for dreamers are all Semitic and not Egyptian usages. Great quantities of various offerings of glazed pottery were found in the shrine, but all had been broken.

The mines of Serabit were also examined, the mode of working was studied, and the tools were found. The records of the mining expeditions form the most important part of the tamule inscriptions. They shew that large bodies of some five hundred men were sent for two or three months at a time. These men were minutely organised with many grades, and dozens of different officials employed to attend to every detail of the work. The supplies were brought up by a service of boats on the Red Sea and a train of five hundred asses to carry both food and water. The whole of the details work out in a fitting manner when studied.

A very important result was the finding of a new kind of writing, apparently Semitic and perhaps proto-Phœnician, dating about 1500 B.C. This decisively shews that Israelites too may probably have had a writing of their own at the time of the Exodus.

The examination of the condition of the antiquities, the evidences of ancient water supply and vegetation, and the distances to which the Egyptians took ore to obtain fuel for smelting, all shew that the climate was the same anciently as at present. There cannot therefore have been more than about five thousand persons in the Peninsula, and the Israelites cannot have numbered more. It is suggested by Prof. Petrie that the original census lists were both of tents and persons; and the word for a family being the same as for a thousand the numbers of tents became misunderstood as thousands in later times, and so originated the exaggeration of numbers.

A brief account of the discovery this winter of the site of the Jewish temple of Onias was also given by Prof. Petrie, and we hope to issue a fuller account of this to-morrow.

SUDAN DEVELOPMENT.

EXPERIMENTAL FARMS.

The experimental farms which the Government has established in this country, says the "Sudan Times," have in their way done much that is valuable in the agricultural development of the Sudan. Although few know exactly what these farms are doing owing to the mystery in which their progress has been shrouded so far, yet those who visit them speak highly of the results obtained at them and consider them as a practical and free school for the education of the natives.

It is time, however, that the experimental farms and especially the central farm took a step forward. The great problem of agricultural labour should be tackled and the day is not far off when the country will be confronted with it.

As the Sudan is expected to be one of the world's grain-producing countries it is advisable to commence some experiments on how to supplement the limited labour supply that is available in it. Now that the long-expected Red Sea Railway is open, and the price of fuel has been vastly reduced, the hour is propitious to experiment on the use of steam machinery for ploughing, mowing and threshing. By comparing the cost of work done by machinery with the same when done by manual labour it should not be difficult to determine the cheaper means. That the wages of agricultural labourers will rise is foreseen by all. This rise will certainly prove detrimental to the interests of the country for then the cost of raising its cotton and cereals will increase, thus making it doubly difficult for the Sudan to compete with other countries in placing its products on the markets of the world.

We appreciate the difficulties which stand in the way of realizing the above.

A large sum of money will have to be found in order to meet the initial expenses, in addition to a handsome yearly allowance for the upkeep of the machinery. But the results will surely justify any outlay. If favourable—and we believe they will be so—people will not be deterred from cultivating large areas of land by the fear of not being able to raise sufficient labour. The strain on the now limited resources of labour in the country will be relieved, and thousands of acres will be placed under cultivation.

NOTES ET CRITIQUES

Le Caire, 12 mars.

A Londres, le Consolidé anglais a baissé avant-hier de 1/8 à 90 3/4. L'Unifiée a, par contre, gagné 3/8 à 105 7/8. La National Bank et l'Agricole sont renseignées en réaction de 1/8 à 27 1/2 et 10. La Daïra est restée invariée à 17 3/4.

A Paris, le Crédit Foncier Egyptien a réagi de 1 franc à 793. La Banque d'Athènes est demeurée inchangée à 145.

***

Notre marché des valeurs a présenté, ce matin, beaucoup d'animation sur certaines valeurs, entre autres les Agricoles du Nil, la Brasserie des Pyramides, les National Hotels, les New Egyptian et les Omnibus du Caire.

Le compartiment des Banques a conservé son calme. La National et l'Agricole ont clôturé plus ou moins à leurs prix précédents. Le Comptoir Financier s'est inscrit à 5 13/16.

L'action Crédit Foncier est restée à 792 ; l'obligation 1886 à 342.

La part de fondateur Immobilière a monté de 550 à 580.

Ainsi que nous l'avions prévu samedi passé, très bon mouvement sur les Agricoles du Nil, qui ont haussé de 278 à 286 ; la part de fondateur a sauté de £ 7 1/2 à 10.

D'autre part, la Brasserie des Pyramides a avancé de 133 à 139 ; la part de dividende, de 79 à 82.

Les Omnibus du Caire ont progressé à 28 1/4.

Les actions Société Entreprises Immobilières et Travaux sont revenues de 4 1/2 à 4 5/16–3/8, et les parts de fondateurs à 17. Cette petite réaction doit être naturellement attribuée à la mise en circulation des actions ; quelques spéculateurs ont tout simplement réalisé. La valeur intrinsèque de l'action et les perspectives de l'entreprise ne s'en trouvent nullement modifiées ; au contraire, les acheteurs sérieux profiteront certainement de la circonstance pour s'intéresser au titre à meilleur compte.

Dans le groupe des Hôtels, nombreuses transactions en National, qui se sont inscrits à 4 11/16. Les Baehler ont repris à 6 3/16. Les Upper Egypt sont revenus à 5 5/8.

Parmi les petites valeurs, les New Egyptian, en bonne tendance, ont atteint 35 sh. Les Estates ont clôturé à 2 1/8—3/16 ; la part de fondateur a encore gagné environ une livre à 13 1/2. Les Salt & Soda ont progressé à 25 sh. 6. Les Egyptian Constructions sont revenues à 1 5/8.

***

Suivant des informations d'Alexandrie, les affaires du New Khedivial Hotel, appartenant à la Splendid Hotels Co., continuent à aller de mieux en mieux. Les recettes sont en progression constante, et celles de la dernière décade accusent un surplus marquant sur les précédentes.

L'augmentation est d'ailleurs, appelée à aller "crescendo", car les travaux d'agrandissement de l'Hôtel touchent à leur fin. Le deuxième étage est ouvert et déjà occupé en partie ; le troisième et dernier sera inauguré à la fin de cette semaine.

Aussi doit-on s'attendre à un mouvement sur ce titre, qui est à un prix très avantageux et offre une belle marge à la hausse.

***

A l'assemblée générale ordinaire de la Wardan Estate Co., qui sera tenue le mardi 27 du courant, à 3 h. p.m., dans les bureaux de MM. Russell, Kerr & Wyatt, au Caire, le conseil d'administration demandera l'autorisation d'augmenter le capital social de £50,000 au moyen d'une émission de 10,000 actions ordinaires à £ 5.

Les actionnaires de la Société Egyptienne de la Daïra Sanieh sont convoqués en assemblées générales ordinaire et extraordinaire le 30 du courant, à la National Bank of Egypt.

Ordre du jour de l'assemblée ordinaire: rapport du conseil, approbation des comptes de l'exercice 1905, fixation du dividende, etc.

A l'assemblée extraordinaire, le conseil proposera la modification de l'article 23 des Statuts.

***

Les actionnaires de l'Agricultural Bank of Egypt sont informés que le dividende de 7 sh. 6 sur les actions de la première émission et le dividende de £ 15.15 sh. par part de fondateur seront payés à partir du 15 du courant par la National Bank of Egypt.

***

Les cours du coton sont arrivés en baisse sensible d'Amérique. Samedi passé, le disponible a perdu 15 points, le Mai 12 et l'Octobre 7.

Les arrivages ont été de 19,000 balles contre 20 000.

Le marché de Liverpool était également en réaction.

Ici, le Mai, qui avait fini avant-hier à 19 7/16, a ouvert ce matin à 19 3/8 pour clôturer au même prix.

BULLETIN DE LA BOURSE

(Aujourd'hui à midi et demie)

La National Bank, l'Urbaine et le Comptoir ont eu les honneurs de la matinée.

La National s'avance à 28 à la nouvelle qu'elle va prendre le nom de Banque d'Etat ; elle réactionne légèrement en clôture à 27 13/16.

Après un début en pleine effervescence à 5 15/16—6, l'Urbaine retombe également à 5 13/16 forts acheteurs.

Le Comptoir gagne 1/8 à 6.

Pour l'Urbaine, comme pour le Comptoir, on parle d'une prochaine émission d'actions.

La Delta Light, un moment délaissée, se relève rapidement à 12 3/8, ainsi que nous l'avions fait prévoir dans notre dernière chronique. Un cours beaucoup plus élevé est en perspective.

La Brasserie des Pyramides passe de 134 à 140, la New Egyptian de 35 à 35/6, la Delta Land de 3 3/16 à 3 1/4, et l'Agricole de 10 1/16 à 10 1/8

En revanche, l'Oasis réactionne à 1 3/8, les Estates à 2 1/8 l'action et 12 1/2 la part de fondateur, la Wardan à 7 1/4, les Nungovich à 16 1/2 et l'Anglo American Nile à 6 1/8.

La Land Allotment poursuit sa marche ascensionnelle à 4 9/32 l'action et P.T. 185 la part de fondateur.

La tendance est excellente, particulièrement pour les Banques Nationale et Agricole, l'Urbaine et la Delta Light.

LA BOURSE DU CAIRE.

Les Agents de change et les Banquiers sont tombés d'accord dans la réunion de samedi passé au Crédit Foncier, de nommer un comité composé de trois Banquiers, d'un négociant et de quatre courtiers. En cas de désaccord entre les huit membres du comité, S.E. Boghos pacha Nubar serait le neuvième qui départagerait les voix.

L'impression générale est que cette question épineuse est entrée dans la voie de l'aplanissement.

COMPAGNIE RUSSE DE NAVIGATION.

L'Agence de la Compagnie Russe de Navigation a l'honneur de porter à la connaissance du public que vers la fin du mois de Mars (vieux style) elle modifiera ses itinéraires comme suit :

LIGNE PIRÉE, CONSTANTINOPLE, ODESSA.

Arrivée —les vendredis à 2 h. de l'après-midi.

Départ—les mardis à 3 h. de l'après-midi.

LIGNE DE SYRIE (bi-mensuel).

Arrivée—les samedis matin.

Départ—les samedis à 4 h. de l'après-midi.

Un avis ultérieur fera connaître le premier bateau partant d'après le nouvel itinéraire.

AVIS

Les EGYPTIAN ESTATES, LTD. informent le public qu'ils mettent en vente, avec des facilités de payement, des lots de terrain situés à Ramleh, près de la *Khedivah Palace*, côté de la mer.

Ces terrains se trouvent à 3 minutes de la dernière station des tramways et sont bordés par plusieurs routes d'une largeur suffisante créées pour faciliter les communications

Leur plus value considérable est assurée dans un temps relativement court.

Toute personne qui désirerait voir le plan de ces lots est priée de s'adresser au bureau de M. Elie Toriel, place des Consuls, galerie de Menasce. 27489 3-1

Vade Mecum for the Homeward Bound.

PICTURE POST CARDS.
"The Egyptian Gazette" Series is the most artistic collection to be found in Egypt.

TO OUR VISITORS.

The Egyptian Gazette has much pleasure in presenting to its subscribers the accompanying description of some of the many interesting routes by which they may travel homewards. Great care has been taken to arrange them as accurately and concisely as possible, and it will be found that none of them are fraught with difficulty. In choosing the route home there are several things to be considered. To begin with there is the difference in climate between Egypt and the various points at which you may arrive in Europe.

This depends partly upon the month in which you leave Egypt, for Cairo in January may be a little warmer than the Riviera, and possibly not so warm as Sicily, but in March it will be warmer than Rome, and more uniformly warm than many other places in Europe. Many people leave Egypt far too early in the year, for as a rule the weather in April and May is perfect. The warmest place to go to on leaving Egypt is Sicily.

Some will want to take into consideration the number of days to be spent at sea, and we therefore subjoin a list showing the time occupied on each of the various routes between Egypt and the Continent of Europe.

They are as follows :—

The long sea routes—from Port Said or Alexandria to Plymouth, Southampton, London or Liverpool—occupy about 14 days. The short ones are as follows :—

Port Said or Alexandria to Brindisi	3 days
Alexandria to Messina...	3 "
Port Said or Alexandria to Marseilles	5 "
Alexandria to Venice and Trieste...	4 "
Alexandria to Naples	3 "
Port Said to Genoa...	5 "
Port Said to Naples	4 "
Alexandria to Constantinople ...	4 "
Alexandria to Piræus	2 "
Port Said to Gibraltar...	7 "

The steamers of the P. & O. North German Lloyd, Orient and Messageries Maritimes are the largest. The Anchor, British India, and Bibby Lines are also excellent, and their steamers are largely patronised by travellers to Egypt.

As regards the train journeys from Cairo, the shortest is that to Alexandria, without change (3 hours). That to Port Said, can now be made without change in 4½ hours.

The least expensive way to England is by the Moss, Papayanni, Prince, and Westcott lines of steamers from Alexandria to Liverpool. The German Levant line has also good steamers from Alexandria to Hamburg.

The quickest through Continental routes are by the P. & O. Brindisi express from Port Said, and the Austrian Lloyd Trieste-Vienna express from Alexandria.

As regards heavy luggage, it must be borne in mind that very little luggage is allowed free on the railways of Europe, but there are several good and responsible forwarding agents in Egypt who undertake at a fixed charge to deliver packages to any address in Europe.

The quickest manner of getting to Europe from Port Said is undoubtedly by the fast Mail Steamers "Osiris" and "Isis" to Brindisi. One of these leaves Port Said every week, as soon as possible after receiving the Indian mails from the great liner arrived from Bombay.

These express steamers have enormously powerful engines, and attain a very high rate of speed, having been specially built to carry the British mail from Port Said to Brindisi. If you are going straight through to England you will find the train waiting at Brindisi which will take you to Calais without changing. It has complete arrangements for sleeping and eating on board, and you should arrive in London on the fifth day from leaving Port Said.

HOTELS EN ROUTE.

SYRACUSE
GRAND HOTEL
PIAZZA MAZZINI, SYRACUSE (Sicily).
First Hotel in the Town.

W. GABRECHT.

SICILY.

The direct route to Sicily is by the Florio-Rubattino Co.'s steamers which leave Alexandria weekly for MESSINA, where one takes train to TAORMINA, one of the most charming and popular places on the island. *Giardini* is the station at which to alight, and the drive up to Taormina is most delightful, occupying about one hour. In and around the town is much to interest the visitor. The theatre is of Greek origin, but restored under the Romans. CATANIA is the starting place for the ascent of Etna and here also is a fine Cathedral. The Greek, Roman, and Saracenic remains that are found all over the island, are an endless sources of pleasure. SYRACUSE has an interesting history, having been a Greek city, which was designed by Demosthenes in B.C. 413, and taken by the Romans in B.C. 212, when Archimedes was slain his tomb is to be seen. The cathedral was once an ancient pagan temple. PALERMO, with about 300,000 inhabitants, is the capital of the Island, and enjoys a delightful climate. Much of interest is to be found in this fine city. The *Palazzo Reale* is of Saracenic origin and close to it the church of *S. Giovannia degli Eremiti* with its picturesque cloisters. The Cathedral, Museum, Botanic Gardens, Villa Giulia and Royal Park are also worth a visit.

CENTRAL ITALY.

The fine steamers of the North German Lloyd leave Alexandria every Wednesday during the season for Naples, the voyage being only 3 days.

NAPLES is also reached in 10 hours from Palermo by the Florio-Rubattino Co.'s steamers, which leave daily. One cannot approach Naples or leave it without wishing to explore some of its islands, besides the lovely places on its bay—*Castellamare* and *Sorrento*. The small steamer that takes you to Sorrento [you can drive too] will take you on to *Capri*.

From Naples to ROME is a train journey of but five hours. All who can will devote at least one week to visiting the many historical and interesting portions of the Eternal City, whose charms and beauties are too well-known to need comment here.

Leaving the Eternal City with much regret, a railway journey of five hours brings you to FLORENCE, where another week can well be spent admiring the *City of Flowers* and its surrounding country. In Florence itself the churches and galleries are of absorbing interest, whilst the local promenades and excursions should not be omitted. *The Cascine* is the most attractive and fashionable promenade in Florence, whilst the *Viale dei Colli*, one of the finest walks in Europe, opened 35 years ago, goes winding up through the hills a distance of four miles. The most delightful excursion outside Florence is that to *Vallombrosa*, with its *Monastery* 3,300 feet above the sea level. This is made first by ordinary train from Florence to *St. Ellero*, thence by cog-wheel railway to *Saltino*. The ascent through groves of oaks takes an hour, and most striking panoramas are unfolded to view.

PISA is easily reached from Florence in about 2 hours; here there is a fine Cathedral and the Leaning Tower. A stay of at least one night should if possible be made, in order to enjoy the view from the Campanile at sunset.

VIAREGGIO. One of the most delightful places on the Italian Riviera near Pisa and on the main line from Rome to Genoa. It is a very convenient half-way house between Egypt and England, and where living is reasonable and the air and surroundings exceptionally good.

NORTHERN ITALY

GENOA (La Superba).—The most picturesque and interesting city in Italy, with the record of having one of the lowest death averages of European cities and a phenomenally equable temperature—warm in winter and deliciously cool breezes from the surrounding mountains and the Mediterranean in summer.

The patriarchal home of Italy's most ancient nobility, whose palaces, gardens, and famous collections of statuary, frescoes, and paintings, are a constant delight to thousands of travellers who annually sojourn in Genoa. Then there are the superbly decorated medieval churches containing exquisite marble columns and historical paintings, and the incomparable Campo Santo filled with its wonderful tombs.

From Genoa to Milan is a matter of only three hours by rail.

MILAN is a good centre for Northern Italy before making the tour of the Lakes. The Cathedral is the principal attraction, with its beautiful windows illustrating the History of the Bible. The public gardens and the monumental cemetery are also worth a visit.

Between Bologna and Milan and only an hour and-a-half from Milan is SALSOMAGGIORE, a renowned health resort on account of its thermal springs, change trains at *Borgo San Donino* and in half-an-hour you are at Salsomaggiore.

GENOA
BRISTOL HOTEL. Proprietor: GALANTI & Co.
CENTRAL HOTEL. Proprietor: KIENAST, A.
HOTEL CONTINENTAL DES ETRANGERS. Proprietors: MELANO & RATELLI

TANGIERS
HOTEL CECIL.
HOTEL DE FRANCE.

TUNIS
GRAND HOTEL DE PARIS.

NORTHERN ITALY (Continued) and The ITALIAN LAKES.

VENICE is a 5 hours journey by rail from Milan, and one of the most delightful places imaginable to pass a quiet stay. The total absence of vehicular traffic strikes one as very strange; no horse, cart, carriage or bicycle is to be seen, and yet there is the sound of life at every turn. The approach to Venice from the Adriatic is unlike that of any other seaport. The town seems to be gradually, like Aphrodite, born of the sea, no hills behind, no stretches of rock, but first the tops of Campaniles appear above the horizon, then slowly the whole glittering town rises like a fairy mirage out of the calm lagoon.

Going northwards from *Milan* you make the tour of the beautiful Italian lakes.

COMO, the birthplace of the younger Pliny, is reached in one-and-a-quarter hours by train by way of Monza:

Boats leave Como frequently for the other towns on the lake, which is very beautiful, and the scenery on either side going up the lake is most enchanting. CERNOBBIO is a charming spot; then come *Tremezzo*, *Cadenabbia*, and *Menaggio* with the prettily-situated town of *Bellaggio* opposite. The walk from *Tremezzo* along the shore of the lake to *Menaggio* is most enjoyable. A steam tram runs from *Menaggio* to *Porlezza* on Lake Lugano in three-quarters of an hour, then steamer to Lugano in two-and-three-quarter hours.

SWITZERLAND.

Switzerland, the heart of Europe, has been described as "A cluster of delights and grandeurs."

LUGANO is some 20 miles from Como and reached by train in one-and-a-half hours. It has a populatien of 10,000 people and is charmingly situated on the Lake of Lugano, amidst lovely Italian scenery. Around it rise M. San Salvatore, M. de Caprino and M. Generoso.

LOCARNO may be reached by rail from Bellinzona in forty minntes. This pretty town, situated at the top of Lake Maggiore, has a mild climate, and is an excellent winter resort. The church Madonna del Sasso, situated above the town is worth a visit as it contains interesting paintings, "Entombment," by Ciseri, and "The Flight into Egypt," by Bramantion.

LUCERNE.—A striking picture on the Lake of Lucerne facing the *Rigi* and *Pilatus* and the snow-clad Alps.

In and around the town the walks are charming, and the excursions to be made from Lucerne by boat, rail, etc., are very numerous. *The Lake of Lucerne* abounds in delightful excursions, those to the *Rigi*, *Pilatus*, *Burgenstock* and *Sonnenberg* needing a special visit each. Other excursions on the lake can be made by steamer, and the ever-changing scenery on the trip from *Lucerne to Fluelen* is a source of delight to the lover of nature.

BRUNNEN, charmingly situated on the most beautiful part of the Lake of Lucerne, commands magnificent views of lake and mountain scenery. Along the Lake of Uri from Brunnen to Fluelen runs the famous *Axentrasse*.

A delightful excursion from Lucerne is that to ENGELBERG. Take boat to Stansstad and from Stansstad it is about 1 hour and 40 min. by Electric Railway, with delightful scenery en route. The ascent of *Titlis*, is made from here, and the panoramic view of the Alps is grand; extending from *Monte Rosa* to the Black Forest, and from the Säntis to the *Matterhorn*.

THE BERNESE OBERLAND.—INTERLAKEN a favourite summer resort and the best centre for making excursions in the Oberland, abounding in fine walks and views. There is a magnificent view of the *Jungfrau* from the Hoheweg, a fine avenue of walnut trees the chief resort of visitors. Interlaken is also not far from the famous waterfalls, *Giessbach*, *Trummelbach* and *Staubbach*. Then also the glaciers of *Grindelwald* and view from *Murren* and the *Schynige Platte* are sights not to be missed.

CHATEAU D'OEX. 3,500 ft. above the sea on the new Electric Railway between Montreux and Interlaken, surrounded by magnificent scenery, with pure dry air. Much frequented by English people in Summer and Winter.

GREECE and IONIAN ISLES.

Many people visit Greece after wintering in Egypt, as it is so easily reached from Alexandria; the climate in April is charming. The best steamers are those of the Khedivial Mail Co. and the Russian Steam Navigation Co.

If possible tourists should arrange to be in Athens for the Orthodox Easter in order to witness the Good Friday and Easter Eve ceremonies, and to be present at the dancing on the Easter Tuesday festival held at Megara for which a special train is run from Athens.

It is worth while to spend a few days in CORFU on account of the beauty of the scenery. There is also good snipe and quail shooting to be had.

HOTELS EN ROUTE.

VENICE
